For Jean, being a Bar Consultant is actually not all about drinks and cocktails; it is also about giving a direction and high standards to every new project, to rise the level higher every time to improve the guest experience. You can follow Jean's cocktail page on Instagram @Cocktail_Circus, recently ranked in one of the 10 best cocktail pages, for inspiration and ideas on serving the perfect drink.

Gin Journeys is a collection created for the optimum Gin experience. Steeped in history with inspiration being drawn from Waterford's heritage to gin, dating back to the Victorian era. Waterford's striking range of gin glasses have been designed with tasting experts, the two new shapes help enrich the aromas and infuse the flavors of the botanicals.

The Gin Balloon glasses are rounded with a short stem, perfect for gins with a high alcohol content, due to their bowl-like shape trapping the aromas inside the glass and allowing the spirit more room to breathe. The Gin HiBall glasses are tall, designed to fully savor low alcohol gin. Both shapes allow enough space for garnishes and ice for the perfect gin cocktail or iced beverage.

Capturing Waterford's rich Irish heritage and the trend in craft gins and sophisticated gin cocktails, this set blends old and new creating a fresh appreciation of this classic spirit. Presented in a sleek 'Gin Journeys' gift box this makes an ideal gift.
